SUMMARY

Full-Stack Lead Developer and AI Architect with 10+ years building scalable distributed systems and AI-driven products. Currently at **Windward** — the global leader in maritime predictive intelligence — designing multi-agent AI systems with LangGraph and DeepAgent. Proven leader across maritime, insurtech, fintech, and gaming, shipping products that serve millions of users. Open to senior IC and technical leadership roles.

EXPERIENCE

Full-Stack Lead Developer
Jul 2023 – Present · 2 yrs+

Windward · Full-time · Remote (London, UK)

- Architected the **Maritime Intelligence Chat System** — multi-agent AI pipeline using LangGraph, DeepAgent, and custom LLM orchestration.
- Built and scaled high-impact microservices handling global maritime data loads for enterprise clients worldwide.
- Drove AI and big data integration to deliver predictive intelligence solutions redefining maritime operations.
- **Won 1st place** at Windward Hackathon 2025 — shipped end-to-end automated feature-building app using Claude CLI, MCP, n8n, and Jira.
